

Elektraweb Theme Park Automation System

- Ticketing & Entry Automation
- Turnstile & Access Control
- Digital Wallet & Balance Tracking
- Sales & F&B Integration
- Reporting & Analytics

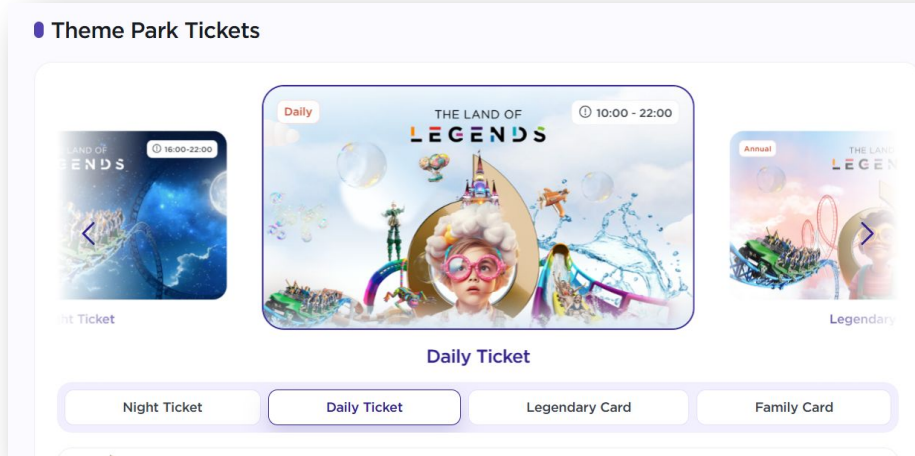

Elektraweb Theme Park Automation System

Elektraweb offers a **cloud-based automation solution** tailored for theme parks, aquaparks and event areas.

It enables full control over ticketing, access to rides, balance management, and real-time monitoring—integrated into a single, easy-to-use platform.

Ticketing & Entry Automation

- Compatible with unlimited entry turnstiles and all types of card, barcode and QR code readers.
- With a quick and easy entry screen, single or group tickets can be easily printed. These tickets can be in the form of cards or wristbands.
- Printed cards or wristbands can use QR (barcode) or RF (contactless) technology.
- Separate cards or wristbands can be printed for each member of a group or a single card/wristband can be issued for the entire group.
- Even if separate cards are printed, families and groups can share a common balance if they wish.

Turnstile & Access Control

- Real-time monitoring of entries and exits
- Ride-specific access using RFID wristbands
- Support for single-use or limited-entry tickets
- At turnstiles and electronic gates, balance checks are performed and the entry fee is deducted from the card according to the ticket type purchased

Be a Part of The Legends

- Includes a complete membership system.
- Photo ID cards can be printed.
- Special member discounts are supported.

Digital Wallet & Balance Tracking

- Visitors can spend the extra balance loaded on their card or wristbands at sales points inside the venue, view their card balance and transaction history from their mobile phones, and optionally add money online via credit card.
- Upon exit in the evening, card or wristbands balances can be refunded or balances can be retained monthly or for specific periods if desired.
- Parents can set spending limits for their children

Sales & F&B Integration

- Inside the facility, sales points (restaurant/bar/market/sub-parks) allow waiters and staff to make sales directly via their mobile phones.
- The system is integrated with fiscal cash registers and e-invoicing.

What Does Elektraweb Park Automation Solution Cover?

- Ticket Sales
- Online Reservation
- e-Wallet Applications
- Virtual POS Integration
- Restaurant Management
- Digital Menu
- Contactless Payment Solutions (Bracelet, card, etc.)
- CRM and Guest Relations
- Multi-language Support
- Multi-currency Support
- SMS and Email Sender
- Promotion Management
- Sub-agency Management
- Turnstile Access Systems
- Contactless Access Solutions (Bracelet, card, etc.)
- Membership Management
- Loyalty Applications
- Mobile Usage
- Cash Register Integration
- e-Invoice, e-Archive Integration
- Detailed Cash and Revenue Reporting

Benefits for Users & Businesses

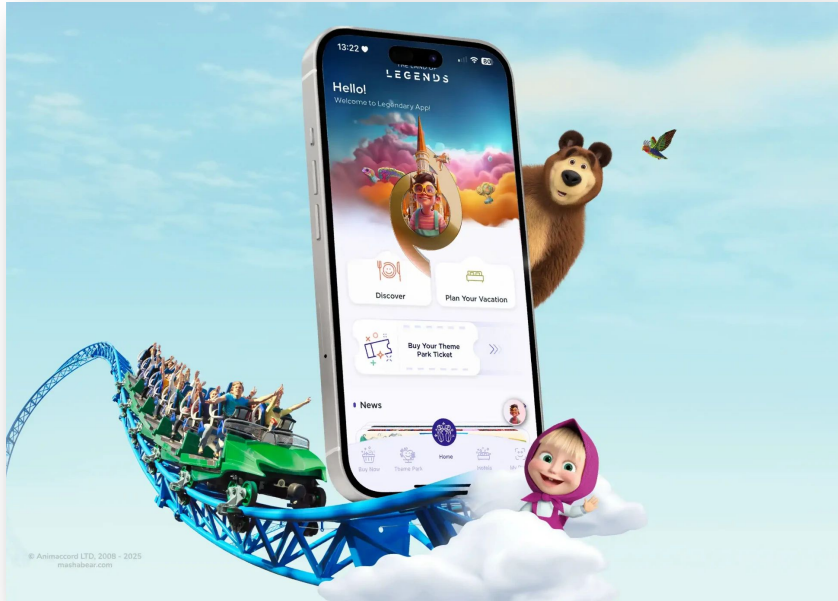

For Visitors:

- Safe and contactless access
- Reduced wait times
- One wristband for the entire park experience

For Operators:

- Prevention of unauthorized entries
- Increased and traceable revenue
- Instant reporting for better decision-making
- Reduced staff dependency

Technical Integrations

- **Hardware compatibility:** Turnstiles, RFID readers, kiosks, POS devices
- **Software integration:** PMS, accounting, CRM
- **Web & mobile:** Seamless integration with online booking and mobile app platforms

Thank You
